

1 YEAR TO THE OCEAN

"A year old already!" I hear you say... we want to make a mark with the first birthday, have a real party, get the family together, create an incredible memory of this great day!

I remember how I felt a few years ago for my son's first birthday very well... and I cried a lot in my kitchen! Too much pressure I think, or maybe 12 months that turned into as many minutes of tears? I'm telling you this to make sure you don't do the same thing!

I tried to make things easier with my ideas and recipes, but I admit that there is still a lot of preparation time, so no extra pressure! Take only what you need and in particular, get help and spread the preparation over several days. And if all else fails? A good yogurt cake with a candle on it will do the trick!

For this birthday, I wanted to suggest the theme of the sea. This can be seen as a little nod to Petit Bateau who trusted me to work on this wonderful creative project.

How about a "sailor's beret" invitation card to invite your friends and your family to celebrate this big day with you and your baby. (PDF1)

You can make a sailor's cake! It is much more beautiful than it is complicated to make, I promise! And I have even planned how it can be decorated, no problem. (PDF2)

Depending how your child's dietary diversification is going, it is possible that they are not yet consuming sweet products. So I created two suggestions for the little ones... and a more scrumptious affair for the older ones. (PDF3)

Then I will give you some ideas on how to decorate the table and a small badge to customise your dishes. (PDF4) You can construct a little decoration for a photo shoot during the party (PDF5) and a nice card in which to slip a souvenir photo to thank your guests for coming.

But there is still a 7th PDF? Yes. This is a gift for you! A playlist to get you in the mood to prepare the best day of your child's life. Don't worry, everything will be fine.

PLAN B by MORGANOURS for

L'INVITATION

To create this invitation, start by printing the template disc as a template for you on the blue paper.

Then cut out the disk and paste the previously printed and cut text.

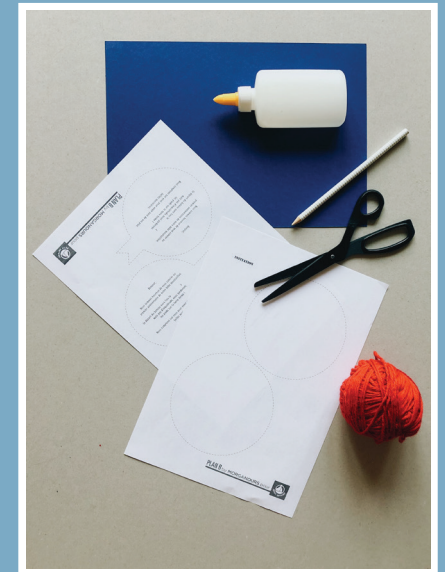

On the other side, attach a red wool pom-pom with a spot of glue.

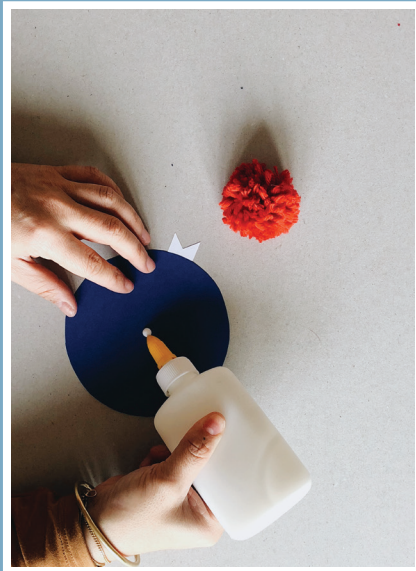

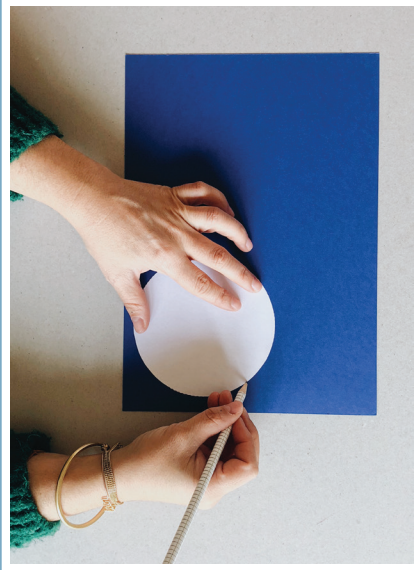

And that's it! All you have to do now is invite your guests.

To save your printer and the planet, print only pages 3 and 4.

Materials:

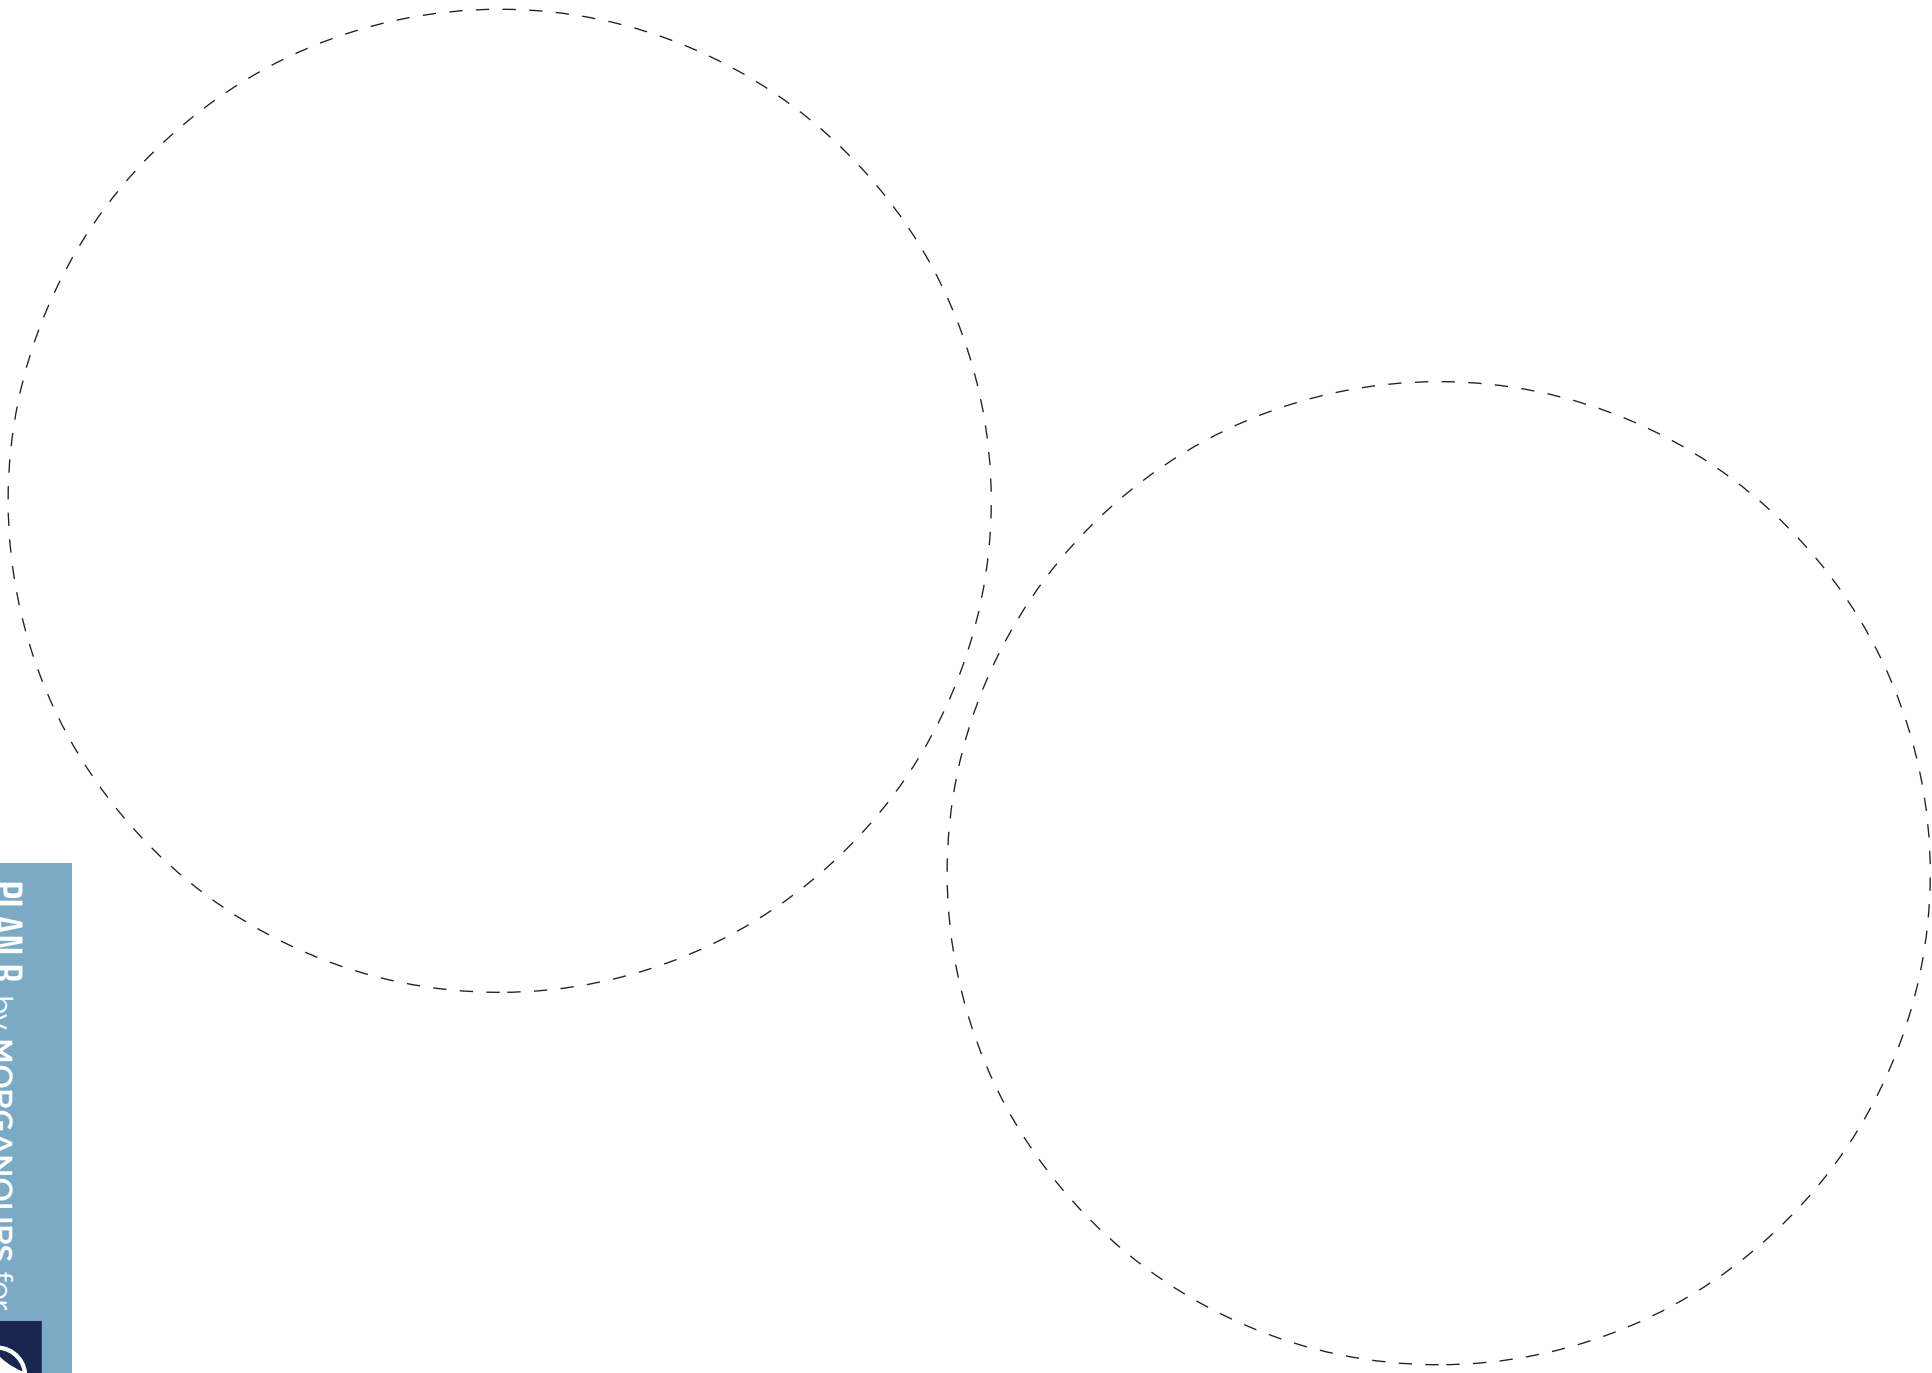

- Red wool
- Navy blue card stock
- White paper
- Glue
- 1 pair of scissors
- 1 pencil
