

Shadow puppet theatre

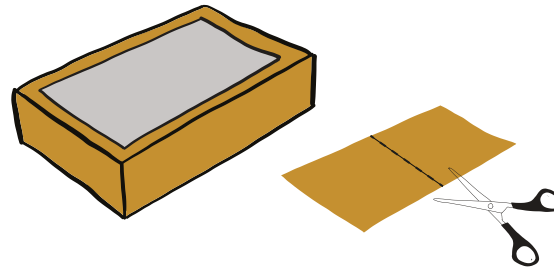

Materials

- . 1 cardboard box (A3 or A4)
- . 1 tube of glue
- . 1 pair of scissors
- . 1 cutter
- . 1 sheet of tracing paper (A3 or A4)
- . 1 piece of gift wrap (striped or not)

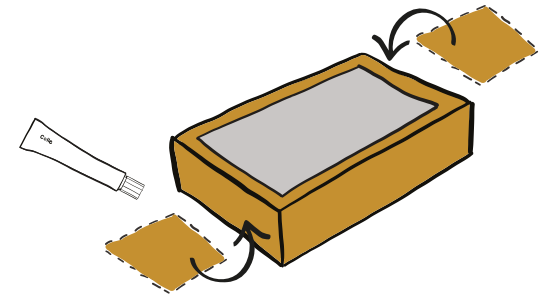

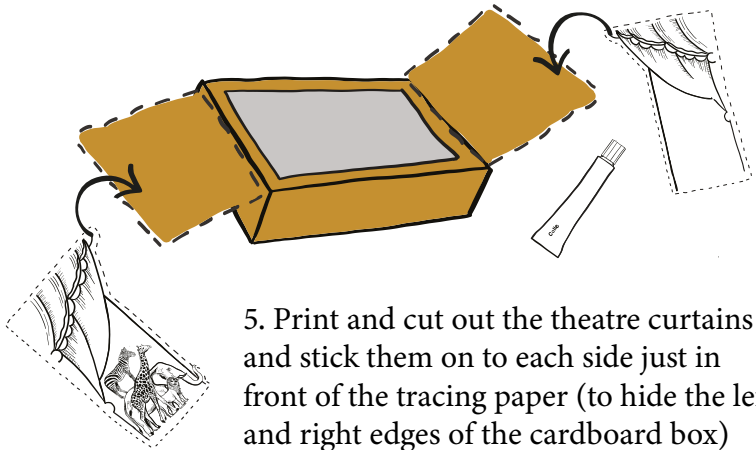

1. Cut out a rectangle smaller than the sheet of tracing paper (A4 or A3) on the 2 largest sides of the cardboard box (to create a hole in the centre)
2. Stick the sheet of tracing paper to the inside

3. Cut one of the 2 pieces of cardboard into 2

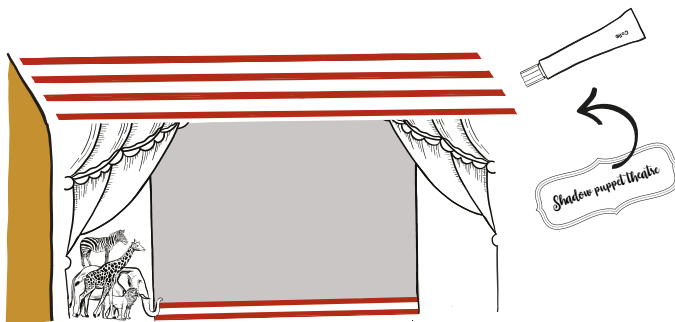

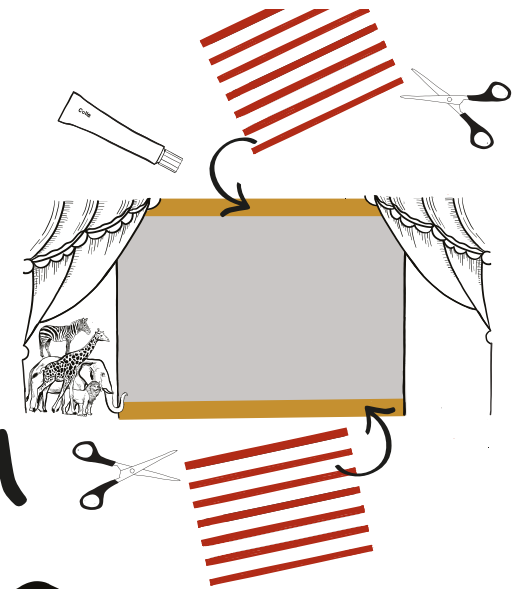

4. Glue 1 piece on each side of the large cardboard box to create supports for the curtains

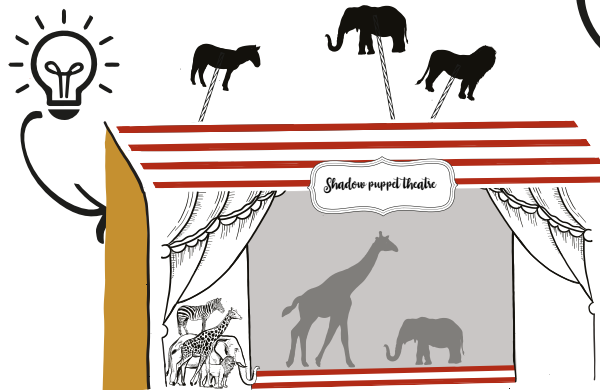

5. Print and cut out the theatre curtains and stick them on to each side just in front of the tracing paper (to hide the left and right edges of the cardboard box)

6. You then have to hide the top and bottom of the cardboard box with a piece of gift wrap (colour of your choice)

7. Cut out and stick the sign to the top centre of the theatre

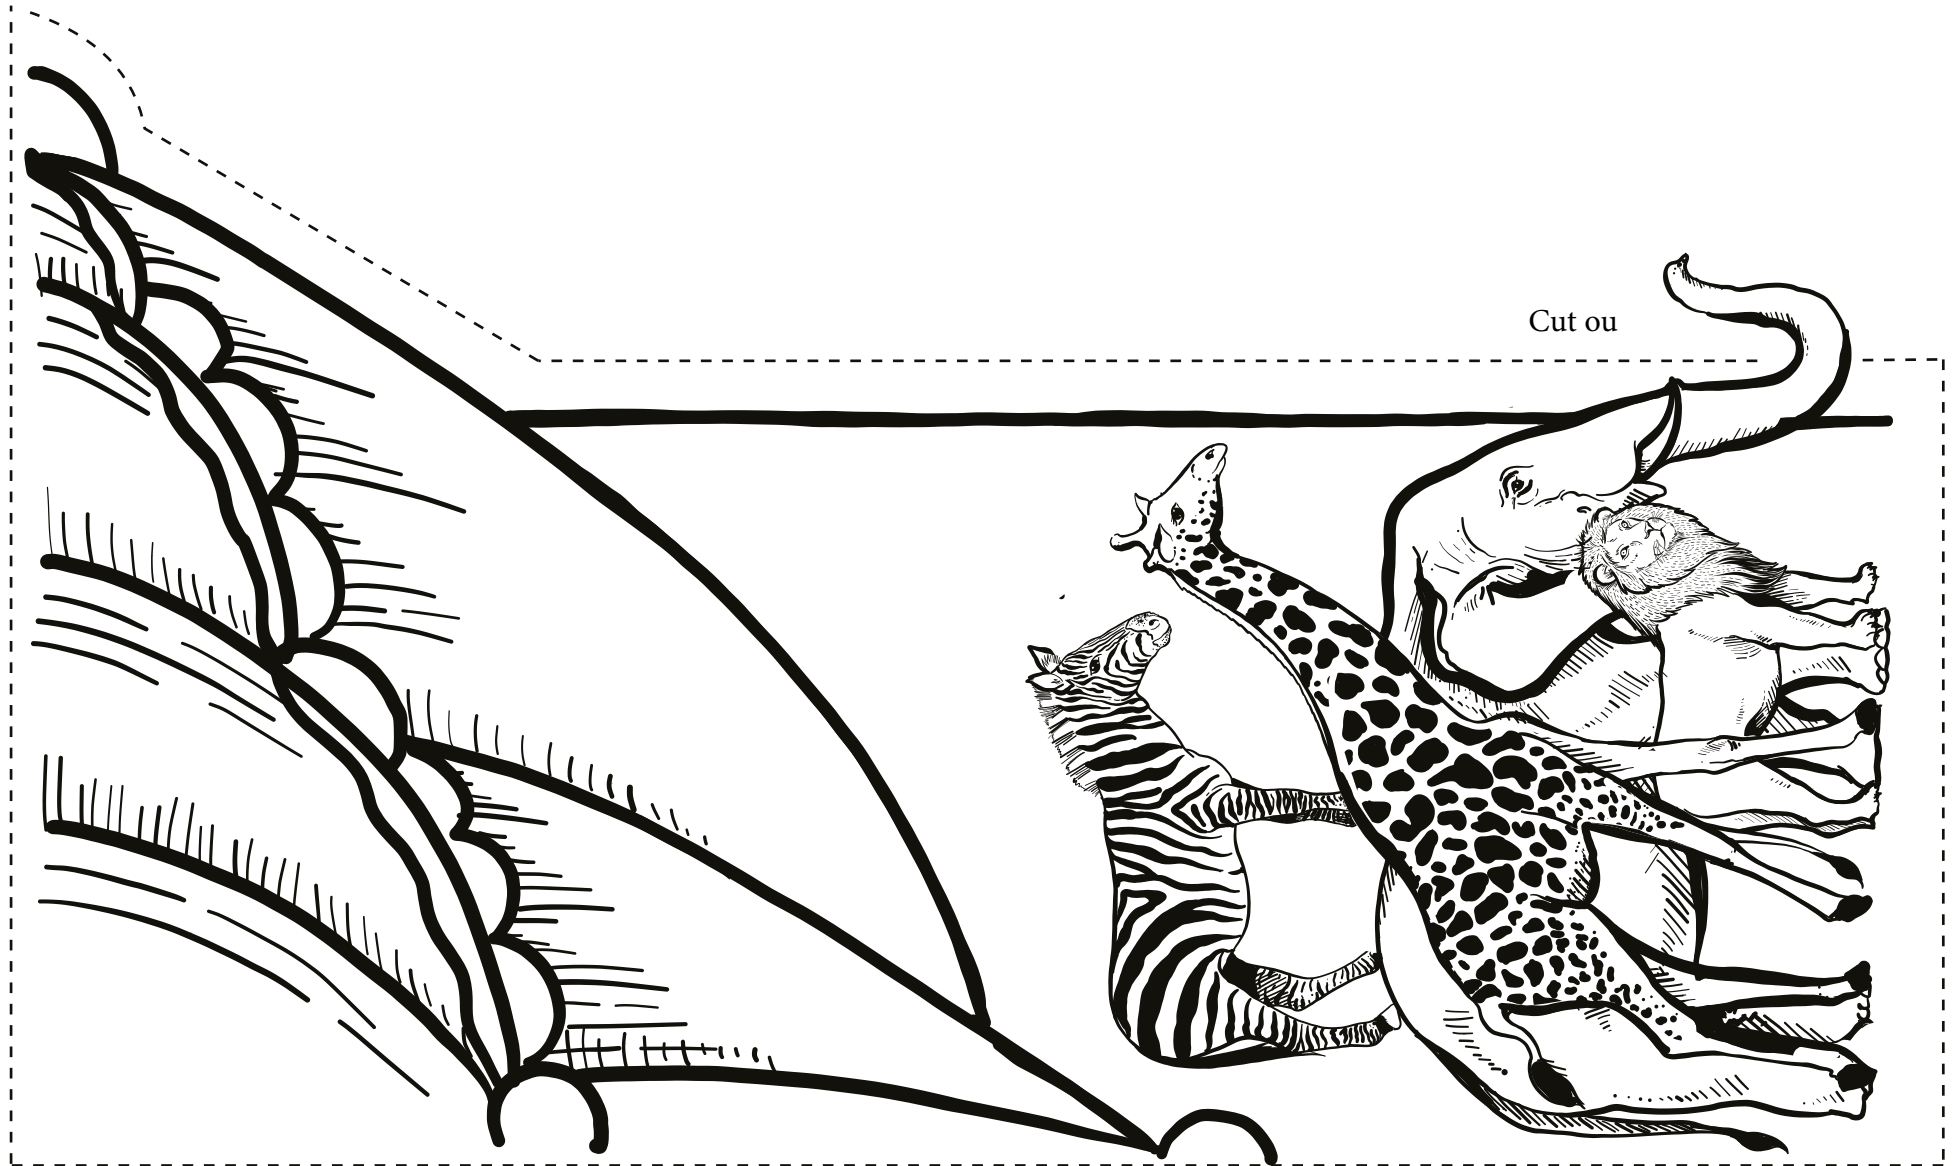

8. Add a source of light (lamp, sun etc.) behind the theatre directed towards the screen (tracing paper).
9. Cut out the animal shapes and stick them onto paper straws.

Ta-dah! The theatre is ready!

Taking turns, the children will now be able to project shadows produced by the silhouettes by placing them between the light and the screen. And with a bit of imagination, they can tell sweet, funny or scary animal stories! Grrrr!

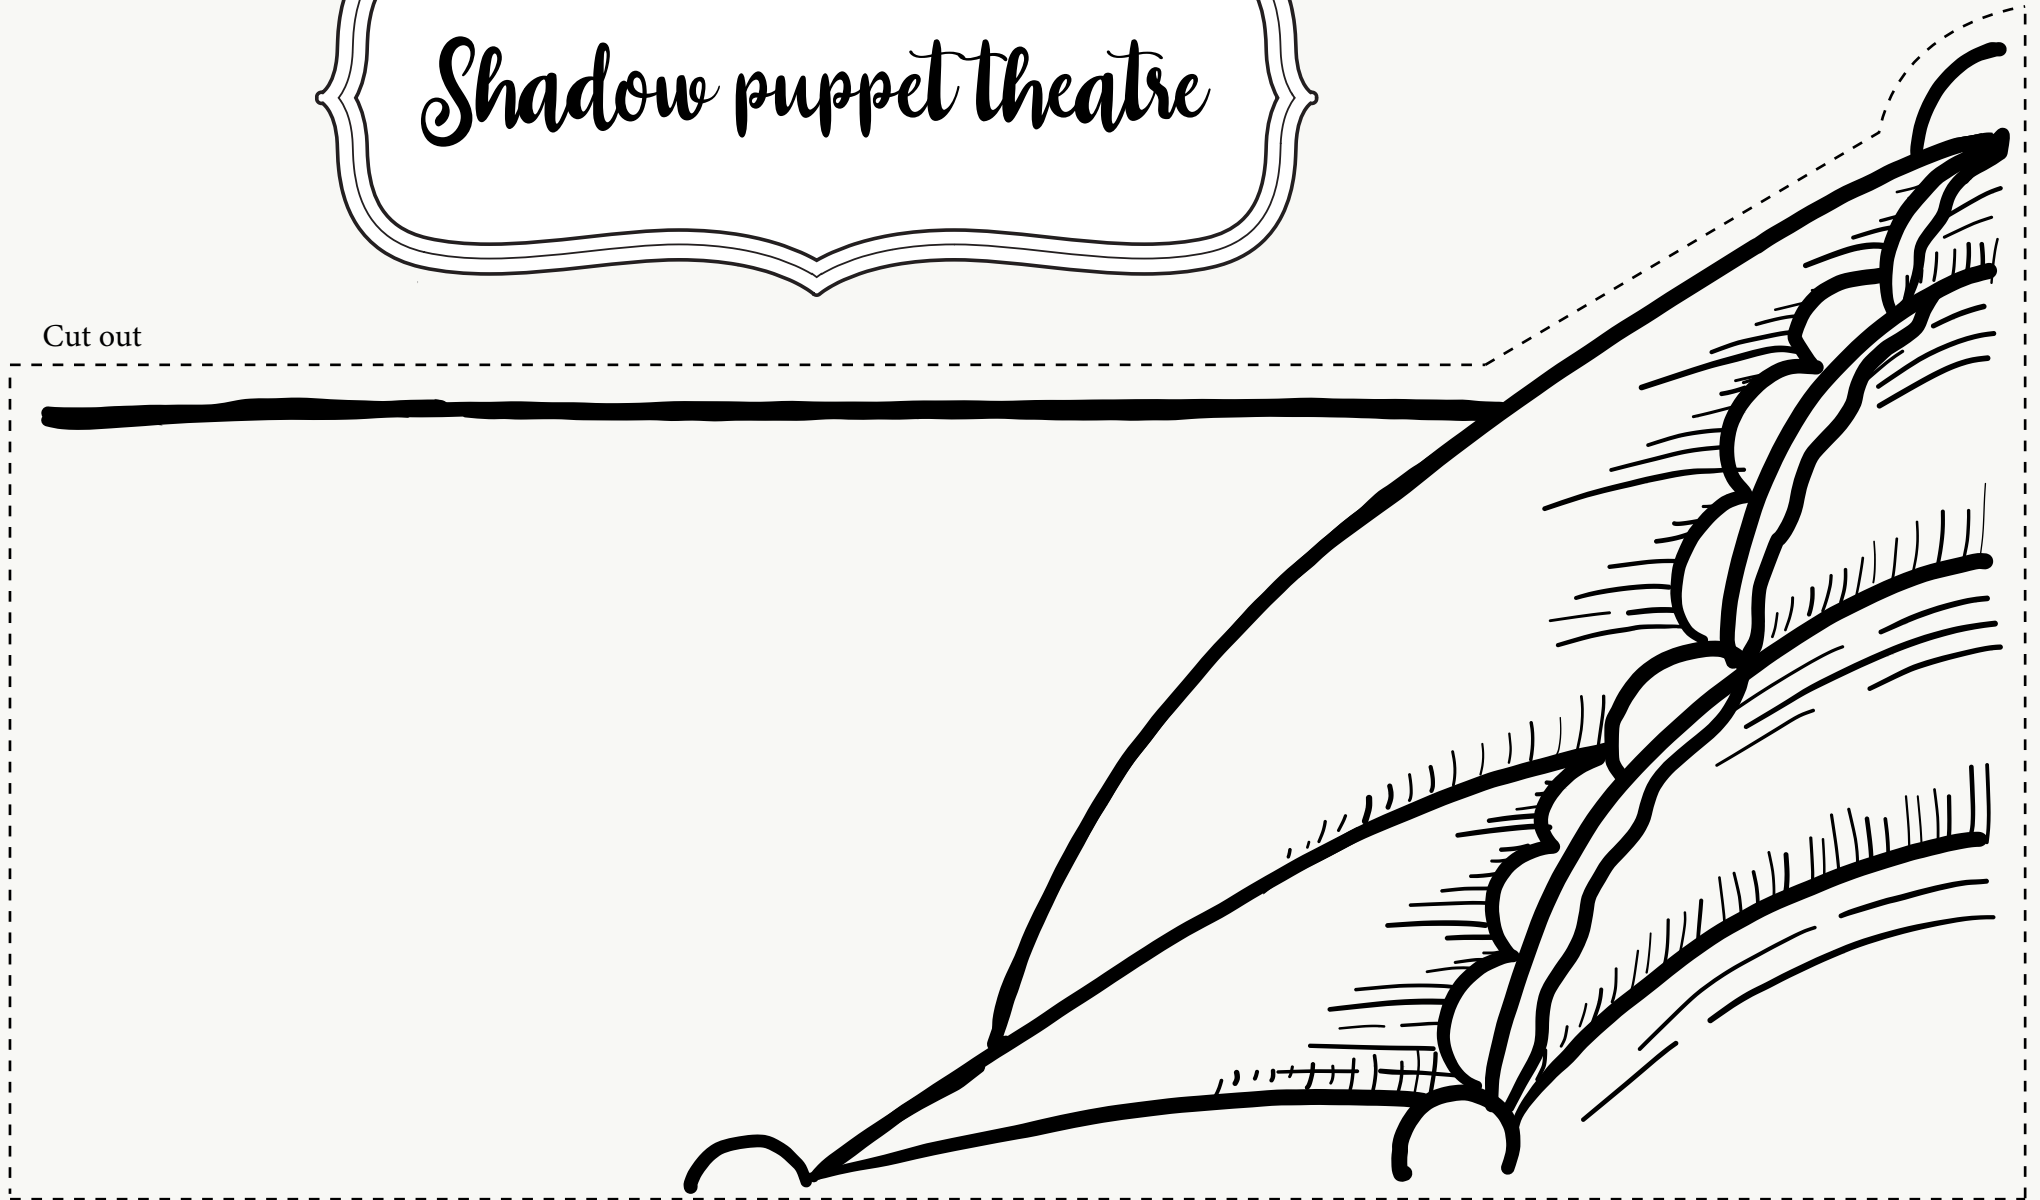

Theatre Part 1

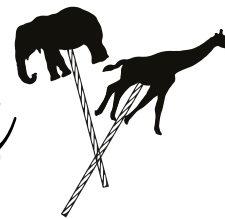

Theatre Part 2

Shadow puppet theatre

Cut out

Wild shadows

- . Cut out
- . Stick to the ends of 6 straws
- . Cut the straws if necessary

Wild

shadows

Welcome

. to the shadow puppet theatre .
