

Limbo Sumo game

LITTLE CHALLENGE BETWEEN FRIENDS!

You know how to play Limbo right?

Everyone takes their turn to pass under a horizontal stick by bending backwards, here a piece of masking tape (coloured Scotch).

The idea is not to touch the tape, the floor or the support with your hands.

The level gets gradually lower.

And so forth until there is a winner.

And to make it more difficult for everyone, each passage must be done with the sumo costume!

X

TO CREATE THE SUMO COSTUME YOU WILL NEED:

- 2 65x65cm cushion covers and 2 pillows
- 1 tube of textile glue & 1 pair of scissors
- 2 small pieces of pink felt, thread and 1 needle
 - 1m black fabric
 - 1m black ribbon

1. Start by assembling the 2 cushion covers by sewing the upper part on 10cm to make the shoulder straps. Cut 2 pieces of 40x70cm fabric to create the loincloth to be positioned in the lower part of the cushion.

2. First glue the centre band, then the horizontal band by first gluing the sides to the back of the cushion, then glue the front part with the folds. Reinforce if necessary with small stitches.

3. Place the cushions in the covers and stick on the nipples.

4. Finally add a small ribbon to tie on the sides to keep the costume in place during the Limbo distortions!

TO MAKE THE LIMBO SUPPORT YOU WILL NEED:

- 1 clothes rack
- 2 rolls of masking tape

1. Place markers on the vertical racks with a piece of tape every 10cm (blue lines)

2. Pass a piece of tape horizontally to create the limit which will be the marker for the Limbo game.

This piece of tape will be moved gradually and will not be touched by the participants
