

# Sushi sweets

## YOU WILL NEED:

- Different kinds of sweets:  
Marshmallow, sweets in the shape of fish and citric strips. Expand the list to include whatever you find that is suitable!
- Toothpicks

X

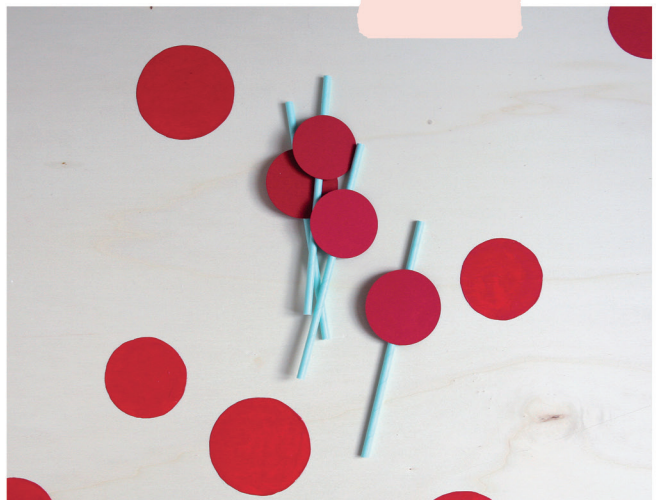

- The marshmallows serve as the base, they replace the rice
- Tie the sushi sweets with a piece of candy spaghetti

- Add rice pudding or an exotic fruit salad in pretty little boxes in cartons to the birthday table. And don't forget the chopsticks!

- Why not lower the table to the right height? Use two wooden crates with a plywood board across the top, with simple circle decorations (to paint or cut from the printable)

- The printable can be used for wall and floor decoration, but it can also be used to personalise the straws. Print it on 120g paper.
